PROFILE SUMMARY

Motivated Electronics and Communication Engineering student seeking an opportunity in the core electronics domain to apply my technical knowledge and analytical skills. Interested in semiconductor technology and electronic system design. Eager to contribute to innovative projects while strengthening my understanding of industry practices and continuously improving my technical and professional abilities.

TECHNICAL SKILLS

- **Core Concepts:** Analog Circuits, MOSFET fundamentals, R & C components
- Programming: Java, C, JavaScript,Python.
- Basic Knowledge of Analog Building Blocks (ADC, DAC, PLL – conceptual)
- Tools: Git, Linux basics, Figma, Twilio SMS

PROJECTS

MobileMed - Healthcare Management App (Group)

- Developed and deployed backend services supporting patient registration, scheduling, queues, and emergency workflows.
- Implemented authentication and secure data handling using Firebase and REST APIs.
- Integrated third-party services (SMS) and managed environment-based configurations.
- Technologies: Node.js, Express.js, MongoDB, Firebase Authentication, REST APIs, Twilio SMS, React.js.

Expense Tracker

- Secure full-stack expense tracker with user authentication and transaction management
- Real-time dashboard showing balance, income, expenses, and category-wise summaries
- Searchable transaction history with spending limit monitoring and alerts
- **Technologies:** React.js, Bootstrap, Node.js, Express.js, MongoDB, JWT, bcrypt.js, Axios

SOFT SKILLS

- Leadership
- Problem solving
- Adaptability
- Languages
  1.Tamil
  2.English

EDUCATION

St.Justin's Matriculation Higher Secondary School — Higher Secondary

Bio-Maths - 92%

B.E - Electronics and Communication Engineering

Bannari Amman Institute of Technology. — **2023 - 2027**

CGPA - 8.1

ACHIEVEMENTS

1.EW PROJECT

Our project based on Home Automation was published on EW PROJECT.
